

# Garden Design Process

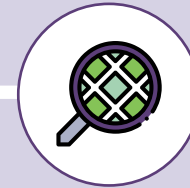

My COUNTRY  
— GARDEN —

We visit the garden and take your client brief

A land survey is commissioned for your garden

We carry out a thorough site analysis

We get creative and design your garden

We project monitor the build process

Trusted contractors quote for the build

A construction pack is compiled for the landscaper

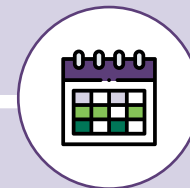

The design is presented and we make any amendments

The planting plan is designed and implemented

We sign off the build process

A plant maintenance schedule is presented

We leave you to enjoy your garden!
